

## VAXIMM Announces Presentations at Upcoming Industry and Scientific Events

- Company to participate in several upcoming partnering/investor forums as well as scientific and medical conferences
- First clinical data in glioblastoma with oral T-cell immunotherapy VXM01 to be presented at ASCO Annual Meeting

*Basel (Switzerland) and Mannheim (Germany), May 3, 2017* – VAXIMM AG, a Swiss/German biotech company focused on developing oral T-cell immunotherapies, today announced that the Company will participate in several upcoming events in May and June.

### **Swiss Biotech Day 2017**

May 4, 2017

Basel, Switzerland

Jointly organized by Swiss Biotech, the Swiss Biotech Association and BIOCUM AG, Swiss Biotech Day is the key annual get-together of the Swiss biopharmaceutical industry. [Click here](#) for more information about this event. Dr. Matthias Schroff, Chief Executive Officer of VAXIMM, will attend this industry event.

### **American Society of Gene and Cell Therapy (ASGCT) 20<sup>th</sup> Annual Meeting**

May 10-13, 2017

Washington, DC, USA

Dr. Sébastien Wieckowski, Senior Scientist at VAXIMM, will give a presentation entitled, “Non-Clinical Safety, Immunogenicity and Antitumor Efficacy of Live Attenuated Salmonella Typhimurium-Based Oral T-Cell Vaccines VXM01m, VXM04m and VXM06m,” on **Saturday, May 13<sup>th</sup>, 10:15-10:30 AM** in the Maryland ABC room at the Marriott Wardman Park Hotel. The abstract is available [here](#).

### **BioEquity Europe**

May 22-23, 2017

Paris, France

Dr. Matthias Schroff will give a corporate presentation on **Tuesday, May 23<sup>rd</sup> at 2 PM**. BioEquity, which is hosted by BioCentury, is an important European industry event for financial dealmakers looking for investor-validated life science companies positioning themselves to attract capital and for pharmaceutical licensing professionals to assess top prospects. More information on this conference is available [here](#).

## **American Society of Clinical Oncology (ASCO) Annual Meeting**

June 2-6, 2017

Chicago, IL, USA

Clinical data in glioblastoma with VAXIMM's VXM01 oral T-cell immunotherapy will be presented in a poster entitled, "VXM01 phase I study in patients with operable progression of a glioblastoma." The poster will be presented during the Central Nervous System Tumors Session on **Sunday, June 5<sup>th</sup>, 1:15-4:45 PM**. The abstract will be available online on May 17 at 5 PM EDT at <http://abstracts.asco.org>.

## **BIO International Convention**

June 19-22, 2017

San Diego, CA, USA

VAXIMM will participate in one-on-one meetings at this event, which is hosted by the Biotechnology Innovation Organization (BIO). The convention is a major networking and education event with over 1,500 sessions and over 16,000 attendees from 76 countries. [Click here](#) for more information about this event.

## **About VAXIMM:**

VAXIMM is a privately held, Swiss/German biotech company that is developing oral T-cell immunotherapies for patients suffering from cancer. VAXIMM's product platform is based on a live attenuated, safe, orally available bacterial vaccine strain, which is modified to stimulate patients' cytotoxic T-cells to target specific structures of the tumor. VAXIMM's lead product candidate, oral VXM01, activates killer cells targeting tumor-specific vasculature and certain immune-suppressive cells, thereby increasing immune cell infiltration in solid tumors. VXM01 is currently in clinical development for several tumor types, including pancreatic, colorectal and brain cancer. In addition to VXM01, VAXIMM has a pipeline of complementary development candidates targeting different tumor structures. VAXIMM's investors include BB Biotech Ventures, Merck Ventures, Sunstone Capital and BioMed Partners. VAXIMM AG is headquartered in Basel, Switzerland. Its wholly owned subsidiary, VAXIMM GmbH, located in Mannheim, Germany, is responsible for the Company's clinical operations.
